

We build your home

**Our target is to provide  
the best service  
in the world.**

The highest Italian workers and the most effective organization combine with productive creativity to allow customers to realize their dream. Not "a partnership" but *il Partner*, able to always guarantee the result, in every aspect of the project, independetly of dimensions and complexity.

***We feed on the customer's ambition.***

In the harmony of the gesture  
the synthesis of perfection.

### **Contemporary Renaissance.**

Our cultural roots lie in the artistic heritage of painters, sculptors, architects and in the skill of the craftsmen who made the Italian Renaissance flourish.

The same competence and mastery - endorsed by modern technologies - we now make available to those who aspire to experience the aura of absolute exclusivity of a new Contemporary Renaissance.

The warmth of tradition.

**Wood is life  
and its palpitation is grasped  
in all our achievement.**

Creativity, planning and executive skills of the craftsmen.

Selection of the finest woods, color combinations, inlays, gold leaf work, cabinet making.

The perfection of the combinations, the absence of continuity solutions, the smooth sliding of the surfaces express the care that we put in every phase of the realization process.

The maniacal attention emerges in every detail and in the overall unity that results from it.

The stone tells the story of the world.

**Its heavy hardness  
becomes light drape.**

From every corner of the globe we select the most precious varieties, working it to enhance its characteristics. Floors, walls, columns and sculptures will collect history of those who wanted to surround themselves.

From Medici's villas to Domus Operandi.

**We renew the Florentine tradition  
of decorative excellence.**

Our cultural roots sink in the artistic heritage of painters, sculptors, architects,  
and in the skill of the craftsmen and artisans who flourished  
the Italian Renaissance.

An enchantment  
of essences and transparencies.

**The aesthetics of well-being.**

The ancient Roman baths, Italy "garden of Europe", testify to a millenary culture that intends the exteriors not only as the splendid setting that embellishes the most sumptuous residences, but also as the privileged place dedicated to well-being. Domus Operandi, witness of this culture, designs and realizes real sensorial paths, where plants, hedges, water games, pools and spa **welcome the body and free the mind.**

Murano's art.

**Precious oneiric expression.**

We avail ourselves of the expertise of the Venetian master glassmakers. An art that borders on alchemy, the magic of transparent chromatics for unique windows, as unique are the chandeliers, sconces, ceiling lights and all the other creations that arise from the magic of glass. Fully achievable according to the specifications and wishes of our customers.

DO

Italy of fabrics.

**Precious textures and warps for furniture  
and exclusive furnishing accessories.**

Venice, Como, Prato.

Centuries of history support our ability to package furnishings with precious coatings; make tapestries or curtains; pillows and upholstery; tablecloths and blankets.

The highest quality of the Italian textile industry, the creativity of designers, the artisan skills of upholsterers and carpenters are the ingredients of the furnishings that Domus Operandi realizes for his client.

“The details are not the details.  
They make the product”.

*(Charles Eames)*

**The seed of the final success  
lies in every “millimeter”.**

We pursue perfection in every detail, however majestic the work may be.  
The project is a synthesis of the expression of desires and the elaboration  
of the symbiosis between them.  
There is a way to make this symbiosis effective:

“Being able to customize every element of desire”.  
We succeed, thanks to the excellence of our workers,  
to **make each element unique, generating a unique set.**

IOO

**The magic turned into reality.**

Each intervention is redesigned in an executive key by the specific departments of competence to guarantee production control and correspondence, but above all **not to betray the magic of your expectations.**
